Patient Services

Encompass Rx believes that treatment is enhanced when patients and caregivers can make informed decisions about their medication therapy. Encompass Rx offers Patient Management services to those patients and caregivers receiving Specialty Pharmacy drugs. These services provide relevant, evidence based information to help patients understand and manage their drug treatment. These services include:

- Initial Health assessment and periodic Re-assessment
- Education and counseling with the Pharmacist, designed to enhance patient understanding and appropriate use of his/her medications
- Information and resources designed to enhance patient compliance with specialty drug administration.
- Coordination of healthcare services, referrals, and care planning to ensure treatment meets the patient's needs

Why Use Patient Management Services?

Encompass Rx believes that patients may gain the following potential health benefits by accessing patient management services:

- Improved knowledge of medication use and administration
- Improved medication compliance by creating a plan to make sure doses aren't missed
- Improved ability to manage difficult side effects
- Improved coordination of healthcare services through the collaboration of your pharmacist and doctor
- *Benefits of the program are limited to and reliant on the patient following directions and complying with the prescribed therapies.*
- *You may let us know of your desire to opt out of PM Services at any time by contacting us.*
- *Non-participation in PM Services will have no effect on the quality or cost of your pharmacy care.*
